

Andrew Min

anmi4420@colorado.edu | [Portfolio](#): yoongimin.com

Summary

Full-Stack Developer (MERN + React Native) with 4+ years of experience building responsive web and mobile applications. Skilled in authentication (OAuth, 2FA), Stripe payment integration, REST APIs, and deploying scalable projects. Strong foundation in both front-end and back-end development with an emphasis on clean, user-focused design.

Technical Skills

- **Languages & Frameworks:** Typescript, JavaScript (ES6+), React, React Native, Node.js, Express.js, Python Flask
- **Databases & Cloud:** MongoDB, AWS
- **Web:** HTML5, CSS3 (Sass), Responsive Design
- **Tools:** Git, GitHub, Vite
- **Other:** Problem Solving, Debugging, API Integration, Stripe Payments, OAuth Authentication

Projects

Recipe Website | TypeScript, React, Node.js

- Built a secure recipe platform with user authentication & 2FA for 100+ potential users.
- Implemented password recovery system and recipe-saving functionality.
- Delivered a user-friendly interface optimized for desktop and mobile devices.

Restaurant Website | Flask, Node.js, Stripe

- Developed a sushi restaurant ordering website with shopping cart & Stripe payment integration.
- Improved checkout experience with dynamic cart system and secure payments.
- Demonstrated adaptability across multiple programming languages and frameworks.

Weather App | React, API Integration

- Created a real-time weather application using location-based and manual search options.
- Integrated global weather API for broader reach and seamless user experience.
- Designed mobile-first responsive UI for accessibility across devices.

Education

University of Colorado Boulder

B.A.S. Integrative Physiology (IPHY)

Emphasis: Health and the functions of the human body.

Boulder, CO
